

The background of the entire image is a vibrant cosmic scene. It features a deep blue and purple space filled with numerous small, bright stars. A prominent, colorful nebula with shades of red, orange, and yellow is visible in the upper right quadrant. On the right side, a portion of a planet's horizon is visible, showing a dark, rocky surface and a bright, glowing blue-white light source, possibly the sun or a distant star, creating a lens flare effect.
